

ANTHONY INGA

Design Engineer

@ anthony@inga.dev | [www portfolio.inga.dev](http://www.portfolio.inga.dev) | tel +1 (469) 708-8807 | loc Dallas, TX 75201

// INIT // SUMMARY

Design engineer working at the intersection of design and development. Worked across early-stage pilots, platform-scale products, and AI-informed experiences – translating complex systems into interfaces that are thoughtfully structured and easy to build on. Focused on interface systems, component-level thinking, and closing the gap between design intent and shipped product.

// LOG // EXPERIENCE

Senior Experience Designer

7-Eleven, 7NEXT R&D; // Irving, TX

Sep 2025 – Present

- > Helped transition 7-Eleven's consumer-facing surfaces – mobile app, web, and in-store kiosks – from keyword search to semantic, intent-driven UI experiences.
 - > Designed UI responses to an LLM-informed intent framework, where the interface adapts based on interpreted user intent rather than exact search input.
 - > Contributed to defining the intent framework itself alongside the core team, from discovery through pilot-ready concepts.
 - > Built Figma prototypes used to communicate interaction behavior and visual parity across engineering, product, and leadership.
 - > Structured project documentation in markdown for LLM scannability – a personal working method for keeping complex, multi-surface projects navigable.
-

Experience Designer

Goosehead Insurance // Southlake, TX

Oct 2023 – May 2025

- > Designed a React application built on top of Salesforce that replaced a legacy CRM dashboard, used by 2,000+ insurance agents for quoting and policy binding.
 - > Worked in a shared Storybook sandbox with a front-end developer to build and validate components for UI compliance and behavior – that sandbox later became a monorepo informing multiple frontend projects.
 - > Mapped agent workflows informed by how people were working around the legacy system, integrating those patterns directly into the new UI so manual workarounds became built-in flows.
 - > Ran interviews and guerrilla testing to validate ideas early and keep the design grounded in how agents actually worked.
-

Experience Architect

Bottle Rocket Studios // Addison, TX

Jan 2022 – May 2023

- > Led discovery and process mapping for a national grocery retailer's curbside fulfillment system – toured multiple store brands to understand operational differences and standardized workflows into a product that worked across all of them.
 - > Defined core workflows and feature structure for a companion mobile app used by store associates for order scanning and fulfillment tracking, working in low-to-mid fidelity alongside a dedicated visual designer.
 - > Ran pilots directly with store associates and managers to pressure-test new features against real operational conditions.
 - > Coordinated with the regional analytics team to align on data collection needs at the store level, ensuring the companion app was tracking the right signals to inform dashboards and reporting.
-

Experience Designer

Bottle Rocket Studios // Addison, TX

Oct 2020 – Jan 2022

- > Managed UI for Robert Half's iOS and Android mobile app – inherited a legacy design library, evolved it through a full visual refresh, and maintained it across both platforms.
 - > Translated architectural decisions into polished, production-ready UI, working closely with engineers for visual parity and running routine QA demos to catch drift between design and implementation.
 - > Produced Lottie animations end-to-end – drawing in Illustrator, rigging and animating in After Effects, then formatting for developer handoff – across both mobile platforms.
 - > Designed for emerging iOS platform features including widgets at their introduction in iOS 14, adapting the design system to support new surface types as the platform evolved.
-

Visual Designer

Bottle Rocket Studios // Addison, TX

Jul 2020 – Oct 2020

- > Brought on to build visual component libraries for native Android and iOS applications.
-

Visual Designer

School of Arts & Technology // Richardson, TX

Sep 2019 – May 2020

Research Assistant

School of Arts & Technology // Richardson, TX

May 2018 – May 2020

// EDU // EDUCATION

University of Texas at Dallas (UT Dallas)

School of Arts, Technology, and Emerging Communication

Bachelor of Arts – Design

// Academic Bridge Scholarship Recipient

Royal College of Art, London

Executive Education – Creative Leadership

// CERT // CERTIFICATIONS

- > AWS Cloud Practitioner // 2025
- > Google Ads Search Certification // 2024

// SYS // SKILLS

-- DISCIPLINES

[Design Systems and Component Libraries] [Interface Architecture] [LLM-Informed UI Design] [Intent Framework Design] [Responsive and Mobile UI Design] [Accessibility and Inclusive Design (WCAG)] [Wireframing and Prototyping] [Information Architecture] [UX Research (Usability Testing, Interviews, A/B Testing)] [User Flows and Journey Mapping] [Product Strategy and Roadmapping] [Art Direction]

-- DESIGN + BUILD

[Figma] [FigJam] [Framer] [Storybook] [Tokens Studio] [Radix UI] [CSS] [Tailwind CSS] [TypeScript] [WeWeb] [Webflow] [Lottie] [Android Studio] [Xcode]

-- AI + LLM TOOLING

[Claude Code AI] [Cursor] [Perplexity AI] [HeyMarvin AI]

-- WORKFLOW + COLLAB

[Miro] [Notion] [Jira] [Confluence] [BitBucket] [GitHub] [Sketch] [Affinity Designer] [Affinity Publisher] [Adobe XD] [Adobe After Effects] [Adobe Illustrator] [Adobe Photoshop] [Microsoft Office Suite] [Salesforce] [Tableau]

// OUT // AWARDS

- > Visual and UX, W3 Awards // Robert Half Mobile // 2022
- > Best UI and UX Practices, W3 Awards // Robert Half Mobile // 2021
- > Best in Professional Services, Stevie Awards // Robert Half Mobile // 2021
- > Inspire Award, First Tech Challenge // Imperial Robotics // 2015

// NET // MEMBERSHIPS + VOLUNTEER

- > Ambassador – UTD AIGA Student Group // 2018–2020
- > Executive Member – A0 Chapter of Omega Delta Phi // 2018–2019
- > Primos – First Generation Career Mentor // 2024
- > Bold Idea – Technology Mentor // 2022
- > WPP Network Recruiting Conference – Panelist // 2021
- > Leonardo/ISAST MIT Press – Latin Academic Reviewer // 2019
- > Dallas World Interaction Design Day Conference – Panelist // 2018–2019
- > Court Appointed Student Advocacy – Philanthropy // 2016–2020
